

In reference to "MB Docket No. 04-233

K-Love currently provides me as an individual with programing that serves as a source of information and music that is not comprimised with materail or content that I find offensive. It is a resourse that the community can and does us as a source of entertainment for young people with out the need to monitor its content or message.If displaced with an LPFM ,that choice could possibly be replaced with programming that does not provide the same level of responsibility to the public interest that K-Love does.
